

FIRE PREVENTION WEEK 6-12 OCT 2014

To keep yourself and your family as safe as possible, there are some things you should do:

- - Space heaters and other heating appliances should have at least 1 metre clearance around them.
- - Only burn dry wood in your fire place or wood stove.
- - Clean your chimney and have it inspected regularly.
- - Always clean your dryer vent after each use and do not leave the dryer going when not at home.
- - Never leave the stovetop or oven unattended
- - Change the batteries in your smoke alarm twice a year.

FIRE DEPARTMENT BOTTLE DRIVE - SAT OCT 11th

Twice a year your volunteer Firefighters conduct a community bottle drive asking for donations of refundables (pop & beer cans & bottles etc.)

Please place your refundables in a blue bag on your doorstep for pickup starting at 9 am Saturday 11th. As the Firefighters go to each home they will be delivering a bag with two 9 volt batteries for you to use in your smoke detectors. If you don't need them just let the men know. If you need a hand replacing your new smoke detector batteries please ask a Firefighter neighbor to help. This also goes for installing a battery powered smoke detector in your home. Each home should have a working smoke detector on each floor of the home including one near the bedrooms.
