Our BA air is only good for three months in the BA and 6 months in the cascade system. We will have to add that to our maintenance schedule

**Wayne:** due to power outage our schedule for persons coming to the hall was haphazard. The duty personnel on the month will arrange an organized rotation

Captains to monitor TMR's should a prolonged outage happen again. Further discussions between the chief's and captain's will have to take place. Suggested that we ask for an OPS channel to reduce chatter.

**Matt:** informed UCFD that tickets and advertising for dance on 19<sup>th</sup> of October is in the works. He requires people to work the event. Terry, Len and Gabe volunteered.

**Eugene:** requested that we purchase more pagers. Action Wayne

**Gabe:** siren should have note about power outages and turning off all appliance until after power restored to prevent accidents

**Len:** A number of people need MFR or refreshers. Wayne said he would check into it during the monthly meeting.

Len will offer training to all who want it on Wednesday night

**Max:** the water quality in the hall deteriorated over the length of the power outage. Wayne suggested that we turn off the water system during an outage (unplug both plugs) and reset when outage is over. This will prevent silt from getting in system

**Harry:** when will the urinals be replaced Wayne stated the plumber will be in Thursday evening.

**Terry:** we should have sign by road to state “comfort station open”

People asked to use our deep freeze. They will be made available on a first come first serve basis
